1 contain elements of fire hazards, such as boiler rooms.

2 Sec. 4. (a) As used in this chapter, "dormitory" means a
3 building or a part of a building containing rooms that are provided
4 as residences for overnight sleeping for individuals or groups. The
5 term includes a residence or multiple dwelling that is:

6 (1) used by a fraternity or sorority recognized by a university;

7 or

8 (2) owned by a university.

9 (b) The term does not include a residence or multiple dwelling
10 that is not recognized by or owned by a university.

11 Sec. 5. As used in this chapter, "senior housing project" means
12 a building or part of a building that:

13 (1) is used for lodging or boarding of at least four (4) senior
14 residents who are not related by blood or marriage to the
15 owners or operators of the project, for the purpose of
16 providing personal care services; and

17 (2) has at least three (3) dwelling units.

18 Sec. 6. As used in this chapter, "senior resident" means an
19 individual who is at least sixty-two (62) years of age.

20 Sec. 7. As used in this chapter, "university" means the
21 following:

22 (1) A state educational institution under IC 20-12-0.5-1.

23 (2) A private college or private university.

24 Sec. 8. Except as provided in section 9 of this chapter, a
25 dormitory or a senior housing project must be:

26 (1) of noncombustible fire resistive construction as set forth
27 in the building law; and

28 (2) constructed with fire partitions located:

29 (A) between each individual living unit to form a fire
30 compartment; and

31 (B) in all:

32 (i) exit corridors;

33 (ii) enclosed exit stairways;

34 (iii) occupancy separations as set forth in the building
35 law;

36 (iv) exterior load bearing walls; and

37 (v) interior load bearing walls.

38 Sec. 9. Except as provided in section 10(4) of this chapter, a
39 dormitory or senior housing project that:

40 (1) contains in the common areas and in the areas used for
41 sleeping an automatic sprinkler system in compliance with the
42 building law; and

(2) complies with section 8(2) of this chapter;
is not required to be of noncombustible fire resistive construction
but may be of any construction type allowed by the building law.

**Sec. 10. The rules adopted by the commission under this chapter
must provide the following:**

(1) An opening in a fire partition must be protected with at
least a ninety (90) minute fire protection rating.

(2) A fire partition must have a sound transmission coefficient
of at least fifty (50).

(3) A dormitory or senior housing project that:

(A) has an automatic sprinkler system; and

(B) complies with section 8 of this chapter;

may be of unlimited area. If the dormitory or senior housing
project is remodeled, the dormitory or project may increase
in building height by twenty-five percent (25%).

(4) A floor assembly in a new dormitory or a new senior
housing project must:

(A) have at least a two (2) hour fire resistance rating; and

(B) be of noncombustible construction.

**Sec. 11. If a dormitory is not owned by the university with which
it is associated but is recognized by the university, the owner of the
dormitory is responsible for complying with the requirements of
this chapter.**

**Sec. 12. The university or other person that would own a
dormitory proposed for construction shall obtain a design release
for the dormitory under IC 22-15-3 from the office of the state
building commissioner.**

**Sec. 13. The commission shall adopt rules under IC 4-22-2
necessary to implement this chapter.**

**SECTION 2. [EFFECTIVE UPON PASSAGE] (a) As used in this
SECTION, "commission" refers to the fire prevention and building
safety commission established under IC 22-12-2-1.**

**(b) The commission shall adopt rules under IC 4-22-2 to
implement IC 22-13-6, as added by this act, not later than July 1,
2003.**

(c) This SECTION expires July 1, 2004.

SECTION 3. An emergency is declared for this act.
